Projects

EventTag - TypeScript

A privacy-first web application that lets event organizers scan cloud photos and enables guests to retrieve their photos with a single selfie, making event photo sharing seamless, instant, and private.

braude-mcp - TypeScript

enables AI to query academic calendar dates, search the latest-year Braude course catalog, retrieve scraped lecture/lab schedules, read syllabus PDF text

Dino game - C++

A simple C++ clone of Chrome's offline Dinosaur game built with SDL2, focusing on core game mechanics, animation, and object-oriented design.
